

February 2, 2011

Dear Sir or Madam,

Molly Stephens has worked with me as a Marketing/ Outreach Volunteer in Seattle and in Spokane Washington. She is a self starter who has excelled with little supervision and has demonstrated creativity and an outstanding work ethic in helping to publicize Peace Corps events.

Molly started volunteering for the Peace Corps Recruiting Office in Seattle, publicizing our recruitment events using traditional marketing methods, as well as social networking and internet marketing. Molly was given only basic instructions and succeeded in identifying new ways to get the word out while working independently and effectively reporting back to our office.

After returning to campus at Gonzaga University, Molly has remained a valuable part of our efforts to recruit in Spokane, WA, where we have no full time staff. Her work in outreach and marketing on the Gonzaga campus and in Spokane has led to markedly increased attendance at campus information meetings. Her hard work has undoubtedly contributed to Gonzaga University's high rankings amongst colleges in producing Peace Corps volunteers.

I am continuously impressed with Molly's initiative and resourcefulness, as well as her organizational and communication skills. I highly recommend Molly in any endeavor she pursues and believe she will be an asset to your organization.

Sincerely,

Elly Slakie  
Regional Recruiter  
Peace Corps
